ABDUR RAHMAN

Front-End Developer

★ OBJECTIVE

Self-Motivated front-end developer with proficiency in JavaScript, CSS, HTML and mobile responsive web development, looking to pursue an entry-level position in UI development in a dynamic firm that provides an opportunity that will help me contribute to its development while concurrently aiding my professional growth

ABOUT ME

I always wanted to get really good at something, and that is how I got into software development. With a passion for professional growth, I completed 300+ hours of coding bootcamps to learn new skills and upgrade my current skills. I'm a hungry learner and I try to get better everyday.
